Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claim 8 is objected to because of the following informalities:

- Claim 8, "loyalty incentive" should be replaced by "loyalty issuance".

Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 4, 5, 14, 15, 21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- Claim 4, it is unclear what the meaning of "one or more of passes" is; the claim scope is therefore unclear.
- Claims 4, 14 are apparatus claims, yet they are presented with limitations that appear to be method steps rather than structure, rendering the claim scope unclear. Applicant should clearly further limit the apparatus with structure (i.e. elements of the apparatus which are *programmed or configured* to carry out the recited functionality). For example, claim 4 includes the steps of "receives", "passes", "determines" where the claim should set forth only such *capabilities*.

Art Unit: 3622

- Claims 4, 5, 14, 15, there is no antecedent basis for “retail system”.
- Claims 4, 14, there is no antecedent basis for “user profile information”.
- Claim 21, it is unclear what structure is responsible for the “means for installing”. Is applicant claiming a system construction employee??

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

5. **Claims 1-21 are rejected under 35 U.S.C. 102(a) as being anticipated by FreedomPay (FreedomPay acquires leading loyalty software company).**

Regarding claims 1-8, 10-18, 20, 21, FreedomPay teaches deployment of a plug-and-play add-on to existing POS systems to provide cashless purchases coupled with a loyalty program. A consumer provides an identifying RFID to a data reader installed at

Art Unit: 3622

a POS. The user identity is determined and associated with the user's FreedomPay account which inherently includes purchase information (authorized payment credentials) used to pay for the purchase. The ability to associate the current purchasing consumer with his loyalty or frequent shopper plan indicates an inherent loyalty system identifier. The card reader can be taken to read on the interaction device which accepts user input (user identity) used to determine a loyalty reward.

Regarding claims 9, 19, the POS systems are taken to inherently include at least a display for displaying prices and amount due.
